WELCOME

to the ASAC 33rd Annual Construction Industry and Excellence in Safety Awards! I'm so happy you are here and that I will get to see you and talk with you a bit. The evening gets swallowed up with activity, so seek me out and say hello. If we should miss each other, give me a call in the coming days and let's schedule a coffee or lunch, I'd love to catch up.

Debra Scifo

Executive Director
American
Subcontractors
Association Colorado

About this evening, this is the 33rd Annual Construction Industry and Excellence in Safety Awards Gala. It has been our pleasure and honor to recognize and award individuals and companies for some time.

Did you know that the number 'three' (3) is significant? So, double 3's is a really big deal! Did you know the odds of rolling doubles three times in a row is 1/216? It's said that things happen in 3's. In Christianity 3 symbolizes the Trinity; Creator, Redeemer, Sustainer and has come to represent wholeness or completeness. In Judaism, 3 represents the merging of one and two; or two opposite and complete values. We think of time as past, present and future. Our effort is rewarded with the third time is a charm. Our very existence is characterized as birth, life and death. Initiatives are marked by a beginning, middle and end. Our high definition, 3D world comes together in three primary colors: red, yellow and blue. We're motivated to act by the three-thumb rule that says to avoid criticism: say nothing, do nothing and be nothing. And this one I really like, the three Borromean Rings, rings that are interlocked because they are bent and come together in a way that cannot be separated, if any single ring is removed the remaining two fall apart.

It is fun and inspiring to look at ordinary things, understand a deeper meaning and see them in new and different ways. It makes life richer, more significant. There is more that I could say about the number 3, let's say that #33 is doubly more significant and powerful. So, here we are at the ASAC 33rd and it is a very big deal to be here with you tonight.

I hope that you never look at the number 3 the same way again and that you are enriched to know that whatever significance you attach to the number 3 that you 'feel' complete, that opposites make for powerful potential, our past positions us for the present and the present gives us opportunity to make for a better future, persistence and tenacity are rewarded, nothing holds more promise than you, all projects and people have stages of development, infinite combinations deliver infinite possibilities, setbacks are life lessons that push us to seek out the better 'something' that is waiting for us. And, this one I really like, flexibility makes us strong and we remain strong when we stand together.

Tonight, we are here together celebrating what we have in common and what we share. It is my hope you meet someone for the first time, get to know an acquaintance a bit better and greet a friend with a smile. Thank you for coming!

Congratulations to all the Nominees !

from

Absolute Caulking & Waterproofing &

Industry Partners DOW, BASF and Smalley & Company

Award Winning Premier Division 7 Commercial Contractor

In business since 1996, we offer extensive product knowledge and installation expertise on both new construction and restoration projects. Serving the states of Colorado and Wyoming, our team will work closely with you to find the best possible solution for your moisture protection needs.

Our mission at ACW is to safely deliver project-specific waterproofing systems on time and within budget. Our valued team of professionals work together to provide solutions from the design phase to project completion. Our focus on quality, efficiency, professionalism and safety elevates the expectations of our clients. We strive to create long-lasting client relationships based on mutual trust and respect."

We believe that the continued influence of teamwork at all levels is the key to success for any company.

ASAC Mission Statement

American Subcontractors Association of Colorado protects and supports the profitability of our members as we build Colorado.

ASAC Vision

To be the united voice for our members, building their sustainable future.

ASAC Values

- Fair and ethical business practices
- Professional development
- Safe and healthful work environment
- Industry collaboration

ASAC Goals

Goal 1: Advocacy

Advocate to protect the rights of subcontractors and specialty trade contractors and improve the business environment in which they operate, before all branches of government and the construction industry.

Goal 2: Collaboration

Encourage collaboration and communication among individuals and entities with similar interests and goals.

Goal 3: Communication

Increase communication with members, prospects and industry groups in a timely, focused, interactive and effective manner.

Goal 4: Education

Provide management and safety education to the construction industry.

Goal 5: Membership

Retain, increase and diversify membership.

Goal 6: Management and Governance

Manage and govern the Association as an efficient, profitable and ongoing business entity.

ON BEHALF OF

Carl Cox

2018 ASAC President

Excel
Environmental, Inc.

the Board of Directors, Staff and Colorado Construction Industry, I want to take this opportunity to thank you for attending this evening. The ASAC Annual Gala is a time where we celebrate our industry at a premium Denver venue. It was August 2011 when the Colorado construction industry celebrated the opening of this venue, Mile High Stadium.

ASAC is an association of subcontractors, suppliers, professional associates and general contractors. Collectively, we are partners that work to improve and positively impact the Colorado Construction Industry. Individually, participation and support are more personal. I suggest . . .

Subcontractors | ASAC is the only association that asks first, "What does a Sub need to be a successful business, to be profitable? Of all the information and resources that are available today via the internet, what is essential and what is optional? As a stakeholder in the construction economy, how do I passively and actively participate and support my company and my industry? How and where does support of industry and community make sense?"

Suppliers | ASAC recognizes that the ethic and integrity of industry suppliers is at the core of the construction business operations. Suppliers are equal stakeholders in the construction process and are equal in benefits and opportunity at ASAC. Thank you to the Suppliers who support their customers and the industry by investing in ASAC!

Professional Associates | ASAC works with Professional Associates who understand investment and have been here for many years, these individuals and organizations serve ASAC in all areas of leadership and support and are equal in benefits and opportunity at ASAC. Associate members who are personally and professionally successful at ASAC are those who make a commitment to invest. Thank you to the Professional Associates who support their customers through the support of ASAC!

General Contractors | ASAC General Contractors are Partners. ASAC GC Partners embrace Partnerships where both individuals and businesses are regarded equally. At ASAC it is through a partnership that the results are profitable and professional. Construction is fraught with complications and unforeseen obstacles and the solution can be found in the relationship between Subcontractor and General Contractor.

I look forward to the events and activities of the evening. I encourage you to learn more about the ASAC Paula Anzell-Morris Celebration of Life Scholarship. This scholarship meets two of the ASAC 2018 initiatives: workforce development and workforce diversity and recognizes a woman who characterizes the values and ethics we all strive toward.

Congratulations to the nominees, finalists and the award winners in the Construction Industry Awards, Excellence in Safety Awards, Legacy, Top Performer and Up and Coming Women of Construction Awards and giving deserving recognition to our BTAC Partners.

AMERICAN SUBCONTRACTORS ASSOCIATION COLORADO
PAULA ANZELL-MORRIS

CELEBRATION of Life Scholarship

A native of Treverton, PA, graduated from the University of Pittsburg and received her Master's Degree in Business at New Mexico State University. Paula was a natural born leader and former resident of Las Cruces, NM, and was deeply involved in that community prior to moving to Bailey, CO. As the Co-owner of Front Range Commercial Windows and Doors, Paula was a member of the National Association of Women in Construction and the American Subcontractors Association. She was dedicated to making a difference in her community, and was the former President of the Platte Canyon School District School Board, as well as assistant coach to the debate team and a favorite substitute teacher. She received the Colorado Association of School Boards "McGuffey Award" for her committed and passionate service.

Paula, her husband, Joe, and friend, Ken, formed the band, JoKen' with Paula and played at various venues in the area.

TWO \$5000 SCHOLARSHIPS AWARDED ANNUALLY

First Award: Fall Semester 2019

Legal Colorado Resident Applicants

Student pursuing a career in construction as a graduating senior or returning to school to pursue an education in the trades, engineering, design, finance, business, law, etc.

Legacy

Linda Cain, Owner

She is the backbone of our company and has been since she and husband Chris Cain started the company in 1984. Linda always steps in to make sure employees are taken care of in times of need, and that we are helping local causes. She works harder than anyone and never misses a beat or a day at the office. Linda keeps us thinking, she is knowledgeable about the industry and teaches us all what it takes to be a successful contributor to the Roofing Industry.

Paula Morris, Owner

Although she won't be in attendance, she would have been a strong contender for this award had she been. She consistently demonstrated what a positive impact on the industry looks like and definitely exceeds the requirements to qualify for this award. Her commitment to the community went far beyond her participation on multiple ASAC committees. It's never too late to acknowledge greatness, and given the timing and impact she had on our organization, it would be nice to acknowledge her role.

Cindy Lizarraga, Project Manager

Since 1978 Cindy has been involved in the project management of residential & commercial building and real estate development. She personally guides each client through the process of lot selection, design and specification and also the ever important area of budgeting. Working in tandem with her partner, Mark Teets, Cindy is responsible for the overall construction and successful completion of each project. They build stunningly beautiful quality homes along with quality commercial projects. Cindy is the perfect example of a woman that should be honored for her 40 years in the construction industry. She rocks!!

Jennifer Zavala, Project Manager

Mrs. Zavala has 20 years of professional and practical construction experience within the environmental industry. Jennifer's expertise encompasses environmental remediation, emergency response, and commercial & industrial fields. Her professional background includes Health and Safety officer, trainer and manager; Project Superintendent and Project Management; ensuring budgetary and environmental compliance; project design and implementation as well as direct project supervisor. She began her professional career with a Bachelor in Biology and Chemistry with an emphasis in environmental studies. Jennifer has spent years training on various remediation courses with a strong health and safety background. Her additional duties include contracts and proposals, management of projects and production compliance procedures, project design and quality assurance.

Karen Poole, Project Manager

She is the epitome of Women of Construction. Upon meeting her 20+ year ago she was a Project Manager Superintendent, she was able to walk the thin line between being a strong-willed woman that the guys respected and losing the respect by being too overpowering. Willing to take someone under her wing and show them the ropes, always wanting success for others. When you think of Karen Poole it is of a woman that pioneered the way for women to become a presence in the construction industry.

Karla Nugent, Business Dev Officer

Karla is responsible for the company's business development, marketing, and preconstruction departments. She advocates for improved training for the next generation of construction workers, which has led to her to become a founding member of SkillBuild Colorado and Skills2Compete Colorado. Her deep commitment to construction and philanthropy has led her to be recognized as DBJ Outstanding Women in Business, CREW Denver Emerging Iconic Woman Award, DBJ Partners in Philanthropy Corporate Citizen of the Year Award and Colorado Women's Chamber 2018 Top 25 Most Powerful Women.

Becky Dunn, Project Administrator

Becky has been with JHL for 25+ years & already possesses the title "Legacy" within our walls! Whether it was our first copier, fax machine, or voicemail system, she's seen JHL through it all. She knows who we are at JHL & what our roots are more than anyone. Because of that, she probably boasts with more pride than anyone with where we are at today, and deservedly so! Becky has always been somewhat of a motherly figure within our office, the first one there to support you, but she's not afraid to put you in check when it's needed. Either way, it's all out of love! She has always been a shining light, a breath of fresh air in an industry where she's always been surrounded by men. Today she loves seeing and mentoring successful women in construction around her.

Top Performer

Lee Lipniskis, Finance Manager

Lee Lipniskis has a degree in Risk Management and Insurance from Ball State University and is the Finance Manager for Core Contractors Roofing Systems. Lee is on the Board of Directors for the Alliance Foundation and also the Chair of the Colorado Council with the National Women in Roofing Association. Core has set values identifying our best employees and naming the values they exhibit in and out of the work place. Lee exhibits all of them. Lee has also lead our company culture by driving multiple employee engagement activities. She has taken it as a personal mission to improve the industries reputation and realized that the only way to change it is to become more involved; creating a spiral effect through our company.

Jessica Cox, Project Manager

Ms. Cox has over seven years of experience researching, performing, coordinating and leading environmental remediation and health and safety projects. Her research and coordinating background includes: compliance of all local, state and federal environmental regulations, emissions and impact reporting, permitting, and correspondence and quality assurance. Jessica is currently on NAWIC board of directors as acting Secretary. Her professional remediation experience includes: water, air and soil reclamation, impact studies, lead and asbestos abatement, volatile organics, Phase I and II investigations, environmental monitoring, sampling and operations and maintenance as well as agency reporting. Jessica's additional experience and current responsibilities include: compliance of State Permitting requirement.

Laura Hoff, PreCon Project Mgr

Laura boasts 17 years of construction experience that includes a strong and diverse history of project types. Laura is relationship based and an excellent communicator. Her personable skills paired with her disciplined, results focused attention to detail makes her an integral leader during the preconstruction phase and a vital resource during all construction phases. Laura's time in the field before working in preconstruction gives her exceptional knowledge and insight that ensures the best value for our clients. Laura joined W.E. O'Neil Construction as a preconstruction manager over a year ago and quickly became a pivotal member of each project team she is on. Laura's ability to develop relationships with subcontractors is inspiring for all our employees. She is always the first to pick up the phone to talk rather than sending an impersonal email.

Ale Spray, Marketing Director

With more than 20 years of experience, Ale is a marketing professional dedicated to the industry and community. Ale currently serves as the Marketing Director for AMI Mechanical, Inc in Denver, Colorado. As marketing director, she is responsible for overseeing the company's marketing and procurement strategies, objectives and goals. However, Ale's expertise extends beyond the A/E/C industry, as she is also responsible for AMI Mechanical's community engagement, wellness program and outreach efforts. Ale has more passion for her work than anyone else! She loves to connect others to leads, even if it does not directly benefit her or her company. Ale was recently awarded "Business Developer of the Year" by SMPS Colo.

Impressive Gatherings

Top Performer

Candee Dietrich, Controller

Candee has the best interests of the company in mind. No one anywhere is more devoted to their employer. She has been enrolled in college credit accounting and finance courses while employed at ACW. She regularly participates in continuing ed seminars, round-table/panel discussions, CFMA programs. Candee has elevated from office manager to controller 2017 and leads a dept of 3 including training, coaching and mentoring. Candee has made job site visits with Ops managers to better understand the challenges faced by the field teams.

Jessica Ostoyich, Sr Project Manager

During Jessica's career, she has been an active participant in the following organizations: US Green Building Council (USGBC), The American Society of Safety Engineers (ASSE), and The American Society of Civil Engineers (ASCE). Last year, Jessica was selected by the ASCE to be one of five judges for the National Concrete Canoe Competition held at Clemson University. As a judge, she was responsible for review and scoring of design papers, product, and performance. Due to her exemplary leadership and ability to connect with and advise young participants, she has been invited back to be the Head Judge for this year's competition in Tyler, TX. Jessica also is working with the National ASCE to create a webinar course on scheduling and planning for ASCE student chapters.

Tara Hendricks, Sr Project Coord

Tara has constantly impressed with her tenacious ability to solve problems. She functions as the senior project coordinator for The Roofing Company and provides leadership to her colleagues. Tara is a valuable asset to the roofing and construction industry.

Up & Coming

Zita Tischler, AP, Payroll, Admin

Has worked for Diamond Excavating, Inc. for 4 years. Her work includes inputting payroll using our intricate job cost system every week for 40 people, doing certified wage input and reporting every week, and is also in charge of all of our payables and vendors. Any project that is brought to her, she meets with a positive attitude. She always has her ears open for situations that come up that she can help with. She has the best phone personality and greets all of our clients with grace and welcome. Zita is a single mother who has raised 3 beautiful children, ages 21, 17 and 10. She works hard to fulfill her commitments professionally and personally and then still has time to join a community race or fundraiser. She just completed the Climb for Air which raised money for the American Lung Association, climbing 56 stories, 1098 steps! She is a terrific asset to our company.

Danaya Benedetto, Co-Founder/CEO

Danaya's career spans 11 years in the environmental, construction, and safety industry. She is an energetic, determined individual with a goal-focused approach and a strong interest in entrepreneurship and eLearning. With a rare talent for modernizing antiquated regulatory content into learner-focused and high performing curricula, she is changing the landscape of skilled-trades training. Danaya has spoken on her process of integrating technology as a means of re-engineering content and expanding industry reach to a new workforce at the Colorado Environmental Professionals Association and the Environmental Information Association. She has an upcoming presentation at the Associated General Contractors HR and Training Managers national conference. As a result of her work in this field, she is recognized as the premier thought leader behind re-imagining construction industry training.

Pamela Davis, Human Resource

She's been with Absolute Caulking & Waterproofing for 3.5 years. One of ACW's core values is creating partnerships and that includes the communities we serve. Last year she spearheaded ACW's participation in AGC's Pajama Program drive. In two weeks she was able to collect \$500 for the pajama drive which allowed us to contribute over 55 pairs of pajamas and numerous books to the cause. In addition, she donates blood every quarter. As the HR Manager, she takes professional development very seriously, keeping up with new DOL and IRS laws and rules. She is very dedicated to safety, it is her mission to make sure the guys get home safely every day.

Leslie Woodbury, Project Manager

After graduating from the Art Institute in Interior Design, Leslie joined a flooring contractor, then joined W.E. O'Neil in 2015 as a Project Engineer and quickly became a pivotal member of her team. Since then, she has been a crucial member of many project teams through a variety of project types. She brings an unparalleled level of determination, detail, and success to any project that she is a part of. Leslie's key to success is her ability to look past any self-serving needs or wants to better suit those of her teammates, allowing for more opportunities and shared successes. Now as a project manager, Leslie is personable, timely, responsive and professional and has been willing to perform many duties on projects to empower our clients. She strives to build relationships with all members of the project team from the client, to design team to subcontractors.

Molly Cape, Sales & Marketing Coord

Molly is a bright, energetic young professional with a deep passion for her community. She supports the marketing and communication function at MTech. With a degree in advertising and public relations from the University of Nebraska-Lincoln, she has a passion for event planning, media relations, and internal communications. In addition, Molly uses her marketing skills as a Public Affairs volunteer for Red Cross Mile High Chapter, where she communicates needed services to the community during disasters. She is well respected by her coworkers for elevating MTech's brand. Molly has the drive to learn more about the industry. She seeks out mentors and gets engaged with industry associations such as the DBIA Young Professionals group.

Alexa Johnson, Project Manager

Less than five years after graduating CSU, Alexa quickly rose through the ranks from Field Engineer to Project Engineer I to Project Engineer II to Assistant Project Manager to Project Manager. Her recent projects include Charles Schwab Lone Tree Campus, United Airlines Flight Training Center, and UCH Highlands Ranch Hospital. Alexa has served on the Mortenson Stewardship Committee for several years. A partial list of the organizations she has volunteered with includes Mile High United Way, Denver Public Schools, Butterfly Pavilion, Urban Peak, Firefly Autism, Wellspring, and Denver Rescue Mission.

Brittany Leany, Project Manager

Brittany is more than deserving of this award as she is leading the way in the industry. Her work ethic and hunger for success and growth are admirable. She is always available to answer any questions or put out fires. She sees multiple projects simultaneously all the way through completion, going above and beyond every day to make sure everything stays on track and is done right. Her creativity and commitment to developing herself as a leader in this industry speak for itself. She never settles and is always striving for better. She is definitely an example to women in the construction industry.

A.I.A. Industries Inc.

AiA has served the architectural and construction market since 1977. Our team of experienced designers, craftsmen, and installers are committed to the highest standard of design, manufacturing, and installation. We offer the architect, contractor, and owner a Single-Source Responsibility. Quality is designed and built into all of our products.

Absolute Caulking & Waterproofing, Inc.

In business since 1996, we offer extensive product knowledge and installation expertise on both new construction and restoration projects. Serving the states of Colorado and Wyoming, our team will work closely with you to find the best possible solution for your moisture protection needs.

Adolfson & Peterson Construction

We exist to build a better tomorrow – enhancing communities for future generations and fostering trust through the delivery of an exceptional building experience. Providing innovative solutions to deliver your wants, and not just your needs is our measurement of success. We're your partner in success, bringing added value at every stage of the building process.

Andy Wood

Andy Wood jumped head first into the preconstruction side of the construction industry because of the fast-paced nature of estimating, and the challenge of building a project on paper before a shovel hits the dirt. What he did not expect, and has come to be one of his favorite parts of the job, is the constant collaboration, relationship building, and partnering with subcontractors necessary to set projects up for success. Andy practices what AP leadership preaches that our subcontractors are the company's backbone and takes pride in treating them as a member of the AP team. He is a core estimator for the municipal, recreation, and K-12 markets, and enjoys working with communities due to the challenge of finding creative solutions to build the best possible project for their often publicly funded budgets. Andy is President of AP Toastmasters is passionate about being a leader at a local youth group.

Axis Solutions

Your business is your livelihood, and that means its appearance is of utmost importance. Unfortunately, all the traffic your business thrives on is hard on your flooring, grinding grime and dirt into the hallway surface, leaking corrosive fluids and chemicals in the lab floor or being bruised and battered by equipment in the warehouse or workshops. Maintaining the finish of your flooring can prove to be difficult.

Carl Cox

Carl Cox is an ASAC and Construction Industry advocate. He has served ASAC as a Director on the ASAC Board of Directors, Membership Committee and is the current Vice President. Carl is Vice President at Excel Environmental, Inc. that provides lead, asbestos and mold abatement. Excel Environmental are members of their trade association, Colorado Environmental Professionals Association.

CCG

We are recognized as one of Colorado's leading insurance brokerages, providing Property, Casualty, Risk Management, Benefits, Life, and Wealth Management services to clients throughout the region. Founded in 1985, CCIG accesses nearly every national, regional, and specialty insurance carrier in the country.

Central Mechanical, Inc.

Founded in 1983, Central Mechanical has been a leader in the Colorado commercial mechanical & plumbing construction industry for over 35 years. Our main focuses are safety, quality and maintaining project schedules. We are a full service Mechanical/Plumbing Contractor providing turnkey mechanical/plumbing systems to our clients.

CRS Insurance Brokerage

CRS is a business insurance brokerage that makes your company's insurance opportunities visible. Through education and training efforts, CRS Insurance works to alleviate the pain that keeps your business from reaching peak profitability and efficiency. With 24/7 service and a trained team of staff that makes the difference, CRS incorporates a consultative approach to find your best fit.

D & E Steel Services, Inc.

The one stop shop for your next custom steel project. At D&E Steel we take pride in our abilities to serve all your steel needs. We will see your steel project from beginning to end by providing full scopes, efficient software, in-house detailing, 16,000 sq ft fabrication facility and our own AISC Certified erection department ensuring accuracy and safety for every project.

Diamond Excavating Inc.

Diamond Excavating, Inc. was founded in 1978 on the promise to provide customer satisfaction for all projects, big and small. Since that time, we have grown to include a fleet of more than 120 pieces of equipment of various types and sizes enabling Diamond to handle jobs of all sizes. Diamond Excavating, Inc. is Cost Containment Certified by the State of Colorado.

Eagle Environmental Solutions

Eagle Environmental Solutions is committed to the highest quality customer service and satisfaction, with extreme focus on keeping the world as we know it clean and healthy. We use cutting edge techniques and technology to handle the removal of harmful chemicals. We set ourselves apart from the competition by handling the commercial side of the business profile.

Eric Carothers

Eric Carothers, LEED AP, has worked for Hensel Phelps for over 15 years, constructing over \$900M worth of projects in that span. In 2003, he graduated from Colorado State University with a Bachelor of Science in Construction Management. Currently, Eric is a superintendent who is highly skilled at supervising employees; coordinating work activities for employees, subcontractors, and production units; purchasing supplies, materials, and rented equipment; and job scheduling.

Eric Rymarz

Eric Rymarz has worked in the construction industry for 12 years, having managed multi-family, commercial, hospitality, retail and major infrastructure projects in Chicago, Phoenix, Dubai and Denver. He earned his Bachelors Degree in Civil Engineering from Iowa State University, and is currently pursuing a Master's Degree in Real Estate and the Built Environment from University of Denver. Eric enjoys woodworking and spending time in the mountains with his family.

Excel Environmental, Inc.

Founded in 2000, Excel Environmental Inc has grown to become an industry leading provider of environmental assessment, investigation, abatement and mitigation services. Excel Environmental Inc. is committed to providing the highest quality environmental abatement, mitigation and remediation services to our clients and customers..

Forsberg Engerman Company

Providing unbiased advice and the most comprehensive insurance options available, at competitive prices. We offer a wide range of high quality products from premier insurance providers. After listening to your needs, we recommend the best policy choices. We also custom design coverage packages to fit your unique business or personal situation.

Front Range Commercial Windows & Doors

Since 2005, FRC has provided expert sales and service to contractors, engineers and architects for their fenestration and hardware challenges. FRC is central to the Denver area and is accessible to projects in all of the surrounding states and nationally. Offering field measurements, shop drawings as well as architectural consulting, project management and custom systems development.

Golden Triangle Construction

We offer the expertise, resources, and financial stability of a large general contractor while maintaining the personalized service and attention of a smaller one. Every project has one of our principals directly involved to plan and manage the project team, approach, schedule exposures and budget. The principals promptly problem solve and resolve challenges.

Herron Enterprises

Our commitment to health and the environment includes Industrial Hygiene Services, Phase I, II, and III Environmental Site Assessments and/or Remediation, Hazardous Material Building Inspections (includes Asbestos, Lead Based Paint, Mold, Methamphetamine, PCB's, Silica, Mercury, etc.), Remediation, Demolition, Operations and Maintenance Plans, Project Management, OSHA Compliance, Training, etc.

Holland Construction

Since 1986, Holland has been providing quality construction services throughout the Midwest. We establish lasting relationships with our clients, consultants, subcontractors, and suppliers by making the construction process a positive and rewarding experience, for everyone involved. And we will do everything in our power to make sure the job is done right.

Holmes Murphy & Associates

We find innovative ways to most effectively manage the cost of risk as well as develop optimum strategies to manage your assets and financial security. We know there's no "one size fits all" solution, which is why we use a comprehensive approach to develop enterprise-wide strategies to support your business plan and culture.

James Torres

James graduated from Colorado State University's Construction Management program in 2006. His early career was spent in the field as a superintendent and he transitioned into a project management role in 2015. James' experience includes K-12 education, higher education, multi-family, parking structures, and unique projects such as the Denver Zoo Elephant Passage Exhibit and Union Station. James enjoys working in the education market and being involved in projects for the community.

JHL Constructors

JHL is an authentically Colorado company, with over 31 years in business. JHL is a true partner to their clients, design teams, subcontractors, and community, and is a family of driven employees working in relentless pursuit of quality and exceptional experiences. Above all, JHL thrives on long-term relationships, integrity, and always doing the right thing.

Laura Eathorne

Laura Eathorne is the Senior Preconstruction Manager and leads the department for The Weitz Company's Colorado Region. She has spent the past 19 years in the Construction Industry as both a Project Manager and Senior Preconstruction manager and brings a well rounded set of skills to each and every project. She earned her Bachelor of Science degree in Civil Engineering from Lafayette College in Pennsylvania. She is LEED accredited and is a valuable partner to the Subcontractor Community, the architect, owner and project teams in suggesting value engineering, alternate products and cost efficiencies.

Miller Wall

Miller Wall Company, based in Denver, Colorado, builds retaining walls for commercial, residential, industrial, and government projects in Colorado, Wyoming, New Mexico, and South Dakota. Miller Wall Company delivers its projects within budget, on time, and, due to our problem solving capabilities, without stress to our clients. Miller Wall Company boasts a stellar safety record.

MW Golden Constructors

We have been providing construction management, design/build, construction, preconstruction, and consulting services for 33 years. Built on the foundation of honesty, integrity, and quality workmanship, MWGC takes pride in developing strong relationships within the communities we work and with our clients.

Nathan Fonseca

Nathan Fonseca is a commercial risk specialist with CRS Insurance Brokerage. Nathan and CRS Insurance Brokerage specialize in risk analysis and insurance program development for the construction industry. Nathan began his career in the insurance industry in 2009 after graduating with an economics degree from the University of Northern Colorado. Other than being the vice chair for the Business Development Council for ASAC, Nathan is also a board member of the University Hills Rotary Club. Nathan is a Colorado native growing up in Westminster, CO.

Nick Williams

Nick Williams, Director of Operations at Absolute Caulking and Waterproofing, Inc. He is a graduate of CU Boulder. Nick is a Director on the ASAC Board of Directors and the ASAC Health & Safety Committee Chair.

Nixon Shefrin Hensen Ogburn

Our attorneys assist clients in many practice areas, including professional liability, healthcare, personal injury, contract, employment, commercial, oil and gas, appellate and probate/estate matters. We welcome the opportunity to provide you with the excellence in counseling and advocacy that has been the hallmark of our practice for three decades.

OPUS Construction

Guided by our mission and values, we operate as a multidisciplinary team with expertise in development, capital markets and finance; project management and construction; and architecture, engineering and interior design. Our integrated design-build model has proven results in providing both time and budget efficiencies.

Paula Morris

A native of Treverton, PA, graduated from the University of Pittsburg and received her Master's Degree in Business at New Mexico State University. Paula was a natural born leader and former resident of Las Cruces, NM, and was deeply involved in that community prior to moving to Bailey, CO. As the Co-owner of Front Range Commercial Windows and Doors, Paula was a member of the National Association of Women in Construction and the American Subcontractors Association. She was dedicated to making a difference in her community, and was the former President of the Platte Canyon School District School Board, as well as assistant coach to the debate team and a favorite substitute teacher. She received the Colorado Association of School Boards "McGuffey Award" for her committed and passionate service.

Preferred Safety Products, Inc.

We integrate the products with the training and management systems that make the products work for you. We look for the best, regardless of the maker or brand name, and bring you not only years of experience in designing safety equipment but also our experience using the equipment.

Randy Totsch

Randy has over 30 years of experience working in the construction industry. His project portfolio includes office developments, data centers, K-12 education, and municipal. He enjoys working with project teams and building great relationships with owners, architects and subcontractors. Randy's favorite project he has been involved in was Denver Rescue Mission's Administrative Building because of the fast pace, fantastic client, and mission of the facility.

Republic Services

Republic Services is an industry leader in U.S. recycling and non-hazardous solid waste. Through our subsidiaries, Republic's collection companies, recycling centers, transfer stations and landfills focus on providing effective solutions to make proper waste disposal effortless for our 14 million customers.

Ruegsegger Simons Smith & Stern, LLC

One of Colorado's largest firms dedicated to defending employers in a broad range of employment matters and insurance defense with extensive experience in various insurance defense, claims defense, subrogation and fraud matters. Our attorneys have represented employers and insurance carriers in hearings and appeals throughout Colorado, Wyoming, Utah, and New Mexico.

Ryan Anderson

As a senior project manager for Adolfson & Peterson Construction (AP), Ryan has managed more than \$400 million in K-12 construction, including new construction, complex renovations, unique additions, and occupied facilities. He recently completed two high-profile, Class A build-to-suit office complexes in Village Center Station in Greenwood Village, now the corporate offices of CoBank and Charter Communications. His can-do personality has earned him a strong reputation with ownership groups, architects and subcontractors across the Rocky Mountain Region as a trustworthy and technically proficient project manager. His knowledge and experience engaging and using local subcontractors and finding resources for any project in any location is a valuable asset for AP. Ryan was President for Miles of Smiles, a non-profit therapeutic horseback riding program for adults and children with disabilities when he was living in Garden City, Kansas. He is also a graduate of the Leadership Aurora Program.

Saunders Construction

Established in 1972, Saunders Construction is an employee-owned corporation with over \$7 billion in completed projects. Saunders excels in building office, municipal, educational, mixed-use, healthcare, residential, recreational, hospitality, mission critical, cultural and retail facilities. Our aim is to build what matters, regardless of project scope.

South Valley Drywall, Inc.

At South Valley Drywall it is our mission to be our Customers' preferred choice. We strive to always put people first, do what is right, take a long-term view, and give back. More than 40 years ago we started our company down this road and today we are proud of our strong customer base and many long term employees. We value commitment, entrepreneurial spirit, excellence, integrity, performance, pride, respect, safety, teamwork, and trust.

Swinerton Builders

Since our founding in 1888, Swinerton's success has been built on a foundation of shared values. We are a 100% employee-owned company, so our people have a personal interest in the success of every project. We work toward a common purpose: to be the preferred builder and trusted partner in every market we serve, proudly leading with integrity, passion, and excellence.

The Roofing Company

From residential roofing projects to large-scale commercial roof installation services in Aspen, Colorado and other mountain towns, we are equipped to handle any sized project. Whether it's architectural design, having the right roofing materials, or expert installation, you can be confident your new roof will be built to withstand the test of time and the harshest Colorado winters.

Vertix Builders

Our extensive experience includes work on over 40 medical and educational facilities throughout Colorado. At Vertix Builders, the quality of the construction and the performance of our team are never sacrificed for quick and easy solutions. We seek continuous improvement to allow us to deliver the best project possible on your schedule and budget.

Wagner Rents, Inc.

Your Caterpillar dealer in Colorado. Since 1976, Wagner sells and rents quality Cat machines used in heavy construction, building construction, mining, waste handling, paving, municipal and governmental applications, forestry, and more. Quality products backed by unequalled support. That's what sets Wagner apart.

Will Valkner

Will brings well-rounded knowledge and understanding to the table, having started his career in project management and later transitioning to preconstruction. He graduated from the University of Illinois with a Bachelor of Science in Construction Management and has over 20 years of construction industry experience. His unique background allows him to provide attention to detail that leads to accurate estimates and a successful project outcome. His favorite project to date is the Cherry Creek Innovation Campus, a facility dedicated to career preparedness for high school students, because of the unique and complex systems involved and the purpose of the facility. He enjoys the challenges that arise in unique projects and always strives for success in the work that he does.

Woods & Aitken, LLP

Since 1921, Woods & Aitken LLP has focused its practice of law on achieving long-term client success on local, regional, and national levels. We are at our best when we focus on leveraging our firm's broad expertise to assist individuals and businesses reach their goals.
