A PROFESSIONAL CORPORATION

DON'T BE
Busy
= BE =
• PRODUCTIVE •

Look at everyone around you. They all seem so busy—running from meeting to meeting and firing off emails. Yet how many of them are really producing, really succeeding at a high level?

Success doesn't come from movement and activity. It comes from focus—from ensuring that your time is used efficiently and productively.

You get the same number of hours in the day as everyone else. Use yours wisely. After all, you're the product of your output, not your effort. Make certain your efforts are dedicated to tasks that get results.
