The True Cost of Being Hacked

Wednesday, July 14, 2021 | 10:00 - 11:00 a.m.

Information & Registration

Learn the importance of cyber security and steps to reduce risk and understand where cyber insurance fits in. This webinar will focus on:

- Cyber Insurance Marketplace
- Cyber Insurance Trends – Why we are seeing the increases
- Security concerns
- Best Practices for your network and what to do to protect yourself
- Future is here, and what the outcome will be for your company
- New Terms you'll need to know and understand your exposures

Presented By: Paul Caron, Senior Director, Incident Response

Paul is a senior director, incident response at Arete, focused on assisting clients throughout digital forensics and incident response (DFIR) engagements, most commonly in the form of complex ransomware attacks and business email compromise. As a cyber

professional, he has extensive experience responding to these incidents, supporting organizations across multiple sectors, and coaching executives on cybersecurity risk management trends.
