Important Update for the 2021 Rocky Mountain Safety Conference

Our Conference Committee and the leadership at CSA and ASAC have been watching and tracking the events around COVID-19. In light of recent surges and unknown factors as we move into fall, we have made the decision to move to a fully virtual event on both October 12th and 13th.

The virtual conference will still have the great topics and speakers as planned, and our vendors will still be able to showcase their safety products and services. As a two day registrant, you will receive an email with a link to the conference platform prior to the event.

We were looking forward to an in person meeting, but in the best interest of safety and health, we have to make this adjustment. Please contact Chris Baker (chris@coloradosafety.org) if you have any questions or concerns.
